His Impact Speaks for Itself! See What People are Feeling.

"I have known Mark and Nanette for over twenty years. This **dynamic duo** gets to the heart of the matter by speaking frankly to students and parents about the silent epidemic of depression. Mark **captivated** our high school students by sharing his own personal struggles with depression. Nanette's story speaks to the family members who often must make the difficult decision of where and when to go for help. If you are looking for a **high-energy speaker** that teenagers and parents can **relate** to, and someone to outline **concrete strategies** to combat depression, then Coach Potter is your man! I would encourage any school to invite the Potters to speak."

Vanessa Harshberger, Principal – Bishop Carroll Catholic High School

"As an educator, the scariest thing I can imagine is pulling 750 students from class, putting them in an auditorium with a guest speaker and talking about depression, but that is exactly what we did and we tasked Coach Mark Potter with the responsibility of making it a **success**. Coach Potter's story about his battle with depression is **compelling** and his message to kids about getting help is **appropriate, relevant, and passionate**. In my nine years in education, I have never seen a group of 750 kids more engaged with a guest speaker. More important than the talk, for us, was the **outcome**. I met with several students over the course of the next few weeks who stepped forward to **advocate** for help in their own struggle with depression. I would highly recommend Coach Potter to any high school that is willing to have the difficult discussion about mental health."

Adam Melichar, Counselor at Maize South High School

"Mark Potter delivered a **powerful** and **heart-felt** message to our students, faculty, and staff at Fort Hays State University. With several hundred in attendance, you could have heard a pin drop as Mark shared his personal experience to bring increased **awareness** to this epidemic. His **genuine** concern for the **well-being** of others is obvious in his presentation."

Fort Hays State University*
